

AML COMPLIANCE POLICY

Reporting Thresholds

Transactions above \$10,000 must be flagged for review.

Transactions just below reporting thresholds should be monitored for structuring patterns.

ACH Monitoring

ACH transfers to multiple recipients within 24 hours require enhanced review.

Non-standard ACH payment descriptions should be flagged for manual investigation.

Circular Movement

Circular movement of funds between related accounts should be treated as suspicious.

Transfer chains with repeated hops across counterparties may indicate layering activity.
